Scenario 1		Is it worse one of your friends upset, they could tell an adult that you sent them the link and you could be in trouble.		
Scenario 2		It depends who they are and if they were joking it's okay. If not, it's spreading rumors, it's not.		
Scenario 3		Is it worse never met them game-to-game it's not okay. No matter how long you've played with them, they are strangers.		
Scenario 4		You don't want to start a fight on social media but you don't need to start.		
Scenario 5		Is it a random pop-up, NEVER trust it. Only trust it if it's your bank. If you click on it, it will end up asking you for your email, password and other personal details that you should keep to yourself.
